

Some Assembly Required—Making Relationship Work

Have the right Tools

Rich Shannon
February 24, 2019 - 1908

NOTES:

My next step

Connecting people to Jesus through intentional relationships with one another.

Small Group Discussion Opportunities

Discuss these questions together:

1. In the family where you grew up what was a theme related to taking care of yourself? What did your family model and/or teach about being selfish?
2. Talk about these concepts: “rugged individualism,” “pull yourself up by your bootstraps,” “if its to be its up to me,” etc. How have you personally been influenced by thoughts like these?
3. Read Matthew 22:34-40. Discuss what thoughts you have about these verses. Did you hear anything on Sunday that caused you to think a little differently? If so, discuss that.
4. On Sunday Rich discussed the concept of self-care and highlighted the categories of physical, emotional, psychological and spiritual. What do you do in regard to self-care in each of these categories?
5. How do you evaluate your contentment?
6. Share what you put down for your next step.

Prayer Focus: Marriages

This month we want to invite you to join us as we pray for marriages in the following ways:

- Husbands and wives will strive to be other-centered in their marriages as in every area of life
- SCF will continue to offer relational environments where married couples can be encouraged and equipped to value each other and glorify God through their marriages
- Every couple will find a place of connection and encouragement through a Grow Group community
- Singles will feel equally valued as we all strive to glorify God in our current relational contexts.

Marriage Builder—Are you newlyweds, “oldyweds,” seriously dating, engaged or newly dating? This class is great for anyone wanting to make a good relationship great! Starting Sunday night, March 3 at 6 pm. 10-week class, \$80 per couple. Register at the Connect corner today!
